

Hello, this is a sample PDF document for testing purposes.

It contains a few lines of text to help with chatbot testing based on PDF content.

Page 1:

- Chatbot technology is evolving quickly.
- Many solutions rely on embeddings and vector databases.
- PDF files can be used as data sources.

Page 2:

- FastAPI, LangChain, and SentenceTransformers are powerful tools for chatbots.
- This document can be split into lines for context-based responses.
